

CMECS Catalog Changes v.1.1.1 to 1.1.2

Summary of Changes

Please note that v1.1.2 addresses **editorial changes ONLY** (unit code edits and typo fixes) and **DOES NOT** include any changes to CMECS units (i.e., concept changes).

- Changes were made to select Biotic Component units and Modifiers to correct Unit Codes in the cmecs.owl and output table files
- Typo corrections were made to misspelled words in the cmecs.owl and output table files

These corrections have been made in the **v1.1.2 CMECS Thesaurus** (text document of the CMECS Catalog ecological units and definitions, arranged hierarchically, with implementation guidance) but it is otherwise unchanged from the last release. The most recent version of the **CMECS Thesaurus** is:

CMECS Biotic Component
